

CAI and T0: Agreements and Key Differences

AGREEMENTS

1

Determinism
(epistemic probabilism)

2

No wavepacket collapse

3

Hilbert space as tool

4

Discrete time at Planck scale

5

QM from classical dynamics

6

Arrow of time emergent

T0 GOES DEEPER

A

CAI: automaton postulated
T0: derived from ξ

B

CAI: 20+ free parameters
T0: zero free parameters

C

CAI: gravity open
T0: $g = c^2 \nabla \ln T$

D

CAI: fermions incomplete
T0: topological winding
